Heromachine create your superhero

Like your hero? Please help keep this project evolving by donating any amount PayPal. January 23: I've made a major change to the way premium members are handled today. If you have been a premium member and now cannot log in, please contact me directly and train me; I'll take care of it as soon as possible. While everyone can use the forums and full version of HeroMachine 2 for free (including all items and features), this free version comes with ads, which we all agree can be annoying. And since the ad needs a certain amount of in-app space, the controls are a bit crushed and the portrait area isn't as big as it could be. But because I like to eat, and ads pay the bills, they are one of those inevitable needs of life. Or are they? In fact, the answer is NO! Premium members can access an ad-free version of HeroMachine 2 that features an alternative design with a much larger character composition screen. Here's what it looks like: Look at this whole room! And there is no announcement to get in the way of character creation or to irritate you with your odious ad-itude (see what I did there?!). Premium Access is only $0.99 a month, which goes directly to me to help pay for the costs associated with running a site the size of HeroMachine. Premium Membership includes: Access to a larger, ad-free version of HeroMachine 2. Access to a larger, ad-free version of HeroMachine 3. A guaranteed warm-up of your heart's cockles knowing you're playing a key role in keeping HeroMachine going. I'm not a doctor, but I'm pretty sure that hot cockles are better than cold ones. Just click the button below to get started! HeroMachine allows you to unlock your inner artist, allowing you to create professional looking illustrations even if you can't draw a straight line. Just choose a pose, then choose a set and genre the elements and click to add them. To save your character as an image in HeroMachine 2, press ALT-PrintScreen on Windows or Command+Shift+3 on a Mac to capture the entire screen (including your character) on the clipboard. Then open a paint program (such as well-named paint on Windows, which you can open by going to Start - Run and type in MSPAINT), go to Edit-Paste and the screen will appear. Then you can trim and save wherever you want. We are aware that flash support (running HM) ends in 2020. We are actively working on a version other than Flash and hope to have something as soon as we can. Thank you for your support and concern! New! Now you can purchase HeroMachine 2 Desktop Version that will work on your local computer without needing an Internet connection and no ads at all! HeroMachine 2, Only $9.95! Use HeroMachine 2 online for free (simpler to use)! Use HeroMachine 3 online for FREE (advanced)! Get HeroMachine Premium (no ads, full width) for $0.99 a month! Have you ever wished they could see the character you've imagined drawn in perfect detail by a professional artist, but you just don't have the ability to do it Thanks to HeroMachine, now if you can imagine it, you can create it, absolutely free. With thousands of hand-drawn custom line art, you can equip any character of any genre. Whether you're an RPGer who wants to bring a sketch of characters to the game, a novelist who wants to capture that perfect face to refer to as you write, or a player who wants a more comical depiction of your warrior, ninja, magician or archer, HeroMachine can bring this illustration to life. Just choose the type of item you want, click it to add it to the canvas and choose your colors. In minutes you can build your own custom and beautiful character sketch.
